

EHSANUL HAQUE SIAM

ehsanul.siamdev@gmail.com / [LinkedIn](#) / [GitHub](#) / [Portfolio](#)

EXPERIENCE

Software Engineer

Jun 2026 - Present

Ledgercross

- Built InvoicePilot, audit-ready invoice operations sealed on-chain: React 19, Fastify, PostgreSQL, a FastAPI OCR service and Solidity contracts, with a 700-test backend suite and QuickBooks, Xero, NetSuite and Sage integrations
- Rebuilt Veritas (KYC-as-a-service) on serverless GCP (Cloud Run, Document AI + Gemini, Terraform) with a three-tier extraction ladder that sends only disagreements to expensive processors

Lead Researcher (NLP & LLMs)

Jun 2026 - Present

Arché Intelligence Lab

- Leading NLP and LLM research, including Bengali NLP, toward peer-reviewed publications
- Coordinating a distributed team of researchers across AIUB, BUET, BRAC and RUET

Research Assistant (Full-time, Remote)

Apr 2026 - May 2026

Deepchain Labs

Remote

- Driving R&D initiatives in blockchain, cybersecurity, and quantum cryptography
- Producing academic papers and technical documentation across multiple security domains

Solo Developer (Part-time, ~20 hrs/week)

Jan 2026 - May 2026

BetaScript LLC

Remote

- Shipped 4 production React websites driving 1.5x revenue growth, serving 50,000+ users across 3 industries
- Owned full lifecycle with React 19, TanStack Start, and TailwindCSS from design to Netlify deployment

AI & Data Engineer (Part-time, ~15 hrs/week)

Aug 2025 - May 2026

BDTracks

Dhaka, Bangladesh

- Developed 15+ web scrapers powering Bangladesh's commodity and accident tracking platform
- Fine-tuned Gemini 2.5 Flash/Pro via Vertex AI for automated data classification across daily national feeds

AI Engineering Intern

Feb 2026 - May 2026

Unies

Remote

- Developed RAG pipelines with Pinecone, ChromaDB, LangChain, and LlamaIndex for academic retrieval
- Implemented LLM evaluation pipelines and FastAPI backends for curriculum-aligned tutoring systems

Team Lead - Game Development

Oct 2024 - Dec 2024

AIUB

Dhaka, Bangladesh

- Led 5-developer team shipping a 2D platformer with 3 levels and 4 GitHub forks in 3 months
- Built custom OpenGL rendering engine with SFML audio and SQLite persistence in C++

PROJECTS

TTT Autos | *React, TypeScript, TanStack Start, Drizzle ORM, SQLite, Spline 3D*

- Shipped dealership platform with 3D Spline showcases, admin CRUD dashboard, and 7 indexed database tables
- Designed polymorphic inventory supporting 3 vehicle types with multi-filter search across 12+ facets

KaajKormo | *React, TypeScript, Rust/Axum, PostgreSQL, Clerk Auth*

- Created job portal with swipe-to-apply UX and AI-powered CV parsing with skill-match scoring
- Architected full-stack with React 19 frontend and Rust Axum backend serving PostgreSQL 17

- Reduced query time from 50ms to 7ms (7x faster) via 3NF normalization and connection pooling
- Served 45+ active university users with centralized admin and student dashboards

BD News Scraper & Analytics | *Python, Scrapy, FastAPI, Docker, GitHub Actions*

- Automated daily scraping of 95+ English and Bangla news sources with Scrapy and Playwright spiders
- Built ML sentiment analysis with TF-IDF clustering and GitHub Actions CI/CD pipeline

EDUCATION

American International University-Bangladesh (AIUB)

Dhaka, Bangladesh

Bachelor of Science in Computer Science and Engineering

2022 - 2026 (expected)

- Cumulative CGPA 3.90 / 4.00
- 3x Dean's List Honors (semester GPA 3.75, 3.89 and 4.00)
- 1st Runner-Up at AIUB CS Fest 2024 App Showcase competing against 20+ teams
- Team Matrix offensive security program: 4 months, 29 modules covering OWASP Top 10, CTF and bug bounty

PUBLICATIONS

"Decoding Research Trends: A Clustering Based Topic Modeling Framework" – IEEE QPAIN 2026, Published (IEEE Xplore, Scopus Indexed)

"Beyond NER: A Comparative Benchmark of Medical BERTS for Multi-Label Adverse Drug Reaction Classification" – International Conference on Intelligent Data Analysis and Applications (IDAA 2025), Book Chapter (Taylor & Francis)

"Cyclones and Calamity: A Historical and Statistical Unmasking of Losses in Bangladesh" – South Asian Climate Conference 2024, Statistical Analysis & Presentation

TECHNICAL SKILLS

Languages: Java, Python, C++, JavaScript, TypeScript, Kotlin, C#, SQL

AI/ML: scikit-learn, TensorFlow, PyTorch, LLMs, BERT, NLP, RAG, LangChain, LlamaIndex, Computer Vision

Web & Mobile: React, TailwindCSS, FastAPI, TanStack Start/Router, REST APIs, Android SDK, Firebase

Databases: MySQL, PostgreSQL, SQLite, SQL Server, Drizzle ORM, Room Database

DevOps & Tools: Git, Docker, Linux, Vertex AI, GitHub Actions, Scrapy, Jupyter
